

# FCA publishes instructions for accessing and downloading FCA FITRS files

News stories | Published: 05/04/2019 | Last updated: 05/04/2019

---

We have built FCA FITRS (Financial Instruments Transparency System) to replace ESMA FITRS in the UK.

---

In March 2019 we issued our [Statements of Policy on the operation of the MiFID transparency regime](#), a Supervisory Statement and a Technical Communication outlining how we will operate the MiFID transparency regime, if the UK leaves the EU without an implementation period.

As set out in the [Supervisory Statement](#) (PDF), if the UK leaves the EU without a deal, we will make FCA FITRS (FCA Financial Instruments Transparency System) available from exit day.

Today, we have published [FCA FITRS - Instructions on access and download of full and delta transparency files](#) (PDF) to enable firms to further their preparations.

FCA FITRS is not yet open to firms for testing; we shall make an announcement when it is.

For further information read our [Statements of Policy](#), the [Supervisory Statement](#) (PDF), or, [technical communication](#) on the operation of the transparency regime.
